FOREIGN.

From the N. Y. Journal of Commerce, April 13. ARRIVAL OF THE HERMANN .- TWO DAYS LATER FROM EUROPE. The Ocean Navigation Company's steamship Hermann, from Southampton, March 26,

has just arrived. She brings us London papers to that date inclusive, being two days later than before received. The Hermann brought 120 passengers, and

a rich cargo. All the efforts used by the governments of France and Great Britain to renew the armistice between Sardinia and Austria have failed. Hastilities would therefore recommence, and be carried on with great vigor on both sides. Although European sympathies were strongly enlisted on the side of the Italian cause, yet it was generally feared that King Charles Albert would be beaten by his powerful enemies, who, to the number of 100,000 strong, meditated a direct march upon Turin, there, as Radetzky's manifesto stated, to nego-

tiate the terms of peace. The latest accounts from Hungary abundantly proved that the Imperialists were not making much headway against the valuant Maygars, as success had latterly crowned the arms of the latter, and the Austrians had several times been beaten with considerable loss.

The republic of Palermo has rejected the constitution and proposals made by the King of Naples. The French and British fleets were about to withdraw, and the Sicilians were preparing for the hostilities which would immediately ensue. The King of Naples could with great difficulty keep his throne, as a formidable insurrection was about breaking out in Calabria, and the Neapolitans themselves

The proposal to appoint the King of Prussia Emperor of Germany, was rejected by the Frankfort Parliament on the 21st March .-This unexpected decision caused great excitement, and would, it was feared, lead to unpleasant consequences between Prussia and Austria.

THE NEW YORK CHARTER ELECTION. The election on Tuesday in New York resulted in the success of the whigs by about four thousand majority. Caleb S. Baltimore San. The New York Journal of Commerce states that Woodhull's majority is 4,372. Taylor's Washington: over Cass, 9,858.

We hasten to correct an error into which we were betrayed by misinformation. Mr. Van Schaick was not a Cass man, but supported and voted for Mr. Van Buren.

A correspondent writes that Van Schaick was expected to " wash his hands publicly of Van Surenism, as he is said to have done privately to leading democrats; but this he failed to do, and was scratched upon thousands of democratic tickets. Had the barnburners withdrawn their ticket for other offices, he would undoubtedly have been elected. The

The whigs are satisfied that they owe their victory not to their own strength, not to any approval of the administration, but to the feuds and divisions of our own party. The New York Tribune freely confesses that " there is no such whig the wimen for two or three days in a continonal majority in our city as this result would indicate:" and admits that " the time must come when the distractions (of the democrats) will have passed away." We trust it will be before the next November election.

UAUTION EXTRA young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townthe corner of Second and Princess streets, Nix- send's Sarsaparilla, denominating it GENDINE, Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for * Having established an Agency in the city what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGI-WAL OLD Dr. Jacob Townsend's Sarsaparilla, having on It the Old Dr's. likeness, his family coat of arms, and his

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has ong been known as the AUTHOR and DISCOVERER SAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful
HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture. have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so rolatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these colatile principles, which fly off in vapor, or as an exhala-tion, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from any thing else; they can then strain this insipid or vapid fiquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SY-GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla not are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared
